

ENVASERV

Health & Safety Policy Statement

Envaserv Research Consult (ERC) considers environment, health and safety and quality as key business issues and these are factored into all our decision making, operational procedures and service delivery processes.

ERC is committed to maintaining health and safe working environment in our facility and also keeping our business operations environmentally healthy.

We strive to continuously improve our practices in the light of recent technologies and novel information in health and safety science. The health and safety of our clients, employees and our communities in which we operate is paramount to us.

The policy has been communicated to all staff and its clients, and it is reviewed on regular basis.
